WORK EXPERIENCE

Developer & Community Manager

2019 - Present

- I led the design, development, and launch of the Ratio Memes app, managing everything from concept creation to full implementation. The app has achieved over 500 downloads and is recognized for its cross-platform integration and advanced functionality.
- I coordinated the technical development of the CNC Laser app, which has surpassed 30,000 downloads, ensuring a functional experience and meeting the client's specific requirements.
- I managed the creation of Fast Calculator, focusing on its technical development to deliver quick and efficient solutions.
- I designed and developed interactive and functional websites, optimized for SEO and tailored to market needs.
- I implemented content strategies and social media management, increasing the visibility and reach of technological projects.

Judo Professor

2020 - 2022

- I provided physical and technical training to students of various ages and skill levels, tailoring sessions to individual and group needs to maximize performance and learning.
 - I led fitness programs focused on improving practitioners' endurance, strength, and flexibility, integrating advanced judo techniques with functional training principles.
 - I designed personalized routines for the technical, tactical, and mental development of students, promoting values such as discipline, respect, and teamwork.
-
