WORK EXPERIENCE

Full Stack Developer & Community Manager en Champ Apps

Responsible for the development and ongoing maintenance of Android, iOS, and Web applications at Champ Apps, where I lead the development of products such as CNC Laser, Fast Calculator, and RatioMemes. My experience includes creating, optimizing, and updating these applications to ensure efficient performance and an optimal user experience. Additionally, I have worked on custom application development as a freelancer, adapting to the specific needs of each client. Since 2020, I have also served as a Community Manager, managing social media and digital marketing strategies to increase visibility and attract new users to our platforms, with a focus on constant community interaction and organic growth.
